

CESO Event Evaluation

Preperation for the BMET Certification - Part 1

Conference Spring 2004

Content

	Information has value for my work	Content matched written description	Instructional methods were appropriate for content	Handouts added value	Course met my expectations
Average	4.1	4.4	4.2	4.4	4.3
Minimum	2	3	3	3	2

(Total 25 forms)

Speakers

Average Score

Larry Boyce, CBET, CET

4.12

(1- Poor, 5- Excellent)

Comments

What were the best aspects	Other comments	Course/Seminar suggestions
Revision of basics	More time (all day)	
The handout is very good	I think this one is good	BMET instrumentation part
Good review of electronics	Shorten intro period	prep for rest of BMET exam
Refreshd memory	A bit more time	
Excellent Summary	To extend the time	Anything up to date
Insights and practicality	More time	
Electronic Section	More time	X-rays
I can take away a lot to do with my work	More practical questions	N/A
Troubleshooting tips, review of basic concepts	I thought it was a very good seminar	
Very useful info. I really enjoyed the electronics refresher.	He spent too long on the intro. It was valuable time wasted the could have been spent more in the electronics.	- more electronic tips for exam
Good presentation	Would this basic format will be the usual trend?	
Outline of transistors	Organize the handouts in order	
Op- Amps	More time	Anatomy
Circuit overview examples on board		
Speaker	More handouts	
Sample/practice question	Alotted time for questions for Larry about the certification process	
Free study guide	N/A	
I got information about the certification process	It was great	Part 2, BMET certification
Overview of whats required	By assigning more time to the section	

Comments**What were the best aspects**

Answering questions - excellent
study guide pointers

The part for preping for BMET

Procedure & details as how to
apply for CBET
