

CESO Event Evaluation

RF and Wireless, EMI, Wireless Point of Care

Conference Spring 2004

Content

	Information has value for my work	Content matched written description	Instructional methods were appropriate for content	Handouts added value	Course met my expectations
Average	4.0	4.2	3.9	3.8	4.0
Minimum	0	0	0	0	0

(Total 22 forms)

Speakers

Average Score

Derick Linegar	4.26
Dr. Goldstein	4.39
K-S. Tan	4.05

(1- Poor, 5- Excellent)

Comments

What were the best aspects	Other comments	Course/Seminar suggestions
-very informative speakers - while a live person on site is ideal, tele/video conferencing allows opportunity to have high quality presenters Quail	- would have liked a more specific agenda on CESO website to names and presentation titles	
I enjoyed the info presented on the wireless interference Information provided Wireless Application	Clearer overheads for Dr. David Goldstein	
Handouts and guest speaker presentations. Good Job!	More hands out - I'm depth info Dr. Tan's handout - very small font size; recommendation to increase size in order to view	Emerging technologies
topics discussed - knowledgeable speakers Very informative - Practical and useful info. On WLAN in the healthcare industry		
The practical solutions to problems ?	N/A	N/A
Wireless technology at KGH	Very well done - thanks!	
	Ask people to turn off cell phones and pagers or put in vibrate mode so not to disturb others during presentation	

Comments**What were the best aspects**

The data from Dr. K.S.Tan session
The info from Derrick on WLAN
security
Dr. Goldstein technology
implemenataion

Other comments

Seminars seemed rushed.
Instead of 2 days, expand to 3.
Provide handout folder with all
materials

Course/Seminar suggestions

ESU saftey, radiology safety, chemical
safety etc.
Safety issue surrounding
Biomed/Clinical Eng.
